*As real as the world may seem to get
as an artist I try to paint its beauty still.
These times may be tough and we've
all felt the repercussions. Therefore I
have decided to be as flexible as possible
for my art lovers, galleries and
collectors. I am personally offering two
new venues for my clients either small
custom sized giclees tailored to your desires
of any image or commissioned original
custom painted screens in any size.
I think this will satisfy my art lovers in
a time when things are tight but the
opportunity for art not foregone.*
